ABOUT US

Choices Food Group is an Australian family owned and operated business that was created out of a real need. The product range was originally developed for people suffering food allergies and intolerances. The market was missing a gluten free offer that delivered on quality, nutritional profile, and importantly, taste. This is why Choices Food Group was created. Today our business offers a wide variety of products though our guiding principle remains the same – whatever we do, we must deliver on goodness AND taste – it can't be one without the other.

We are HACCP and SQF accredited and our products have been endorsed by Coeliac Australia as your trusted partner in foodservice for sweet and savoury gluten free products.

What makes us unique?

- We are one of only a few 100% gluten free sites of scale in Australia = no contamination risk
- Local manufacturing = ability to respond with speed to demand fluctuations
- 100% Australian owned and made = food safety and quality
- Our gluten free products aren't an 'add on' to a non-gluten free range – it's all we do = subject matter experts
